We all have many old and unused items lying around in our homes or garages waiting to be thrown away. I don't know if you've noticed, but there's a great feeling of liberation that comes after shedding old stuff.

However, before you start cleaning your home, we want to show you some incredibly creative DIY projects that may change your mind. You'll learn that a lot of useless items can be transformed into creative ideas.

You can turn an old glove into a [cute chipmunk toy](#), toilet paper rolls into a beautiful floral wall art, plastic bottle into a broom and many more craft projects.

We've been working on this list for a long time, but I'm sure there are many more awesome DIY ideas that we've missed. So if you have done a cool crafting project yourself, or know some creative things to do when bored, feel free to share it in the comments!

The pineapple is supposed to be fresh, and as for the lettuce; it's just a way to use the bottom part, not the whole thing. Just saying.
