

this is a test to see how the published content is translated into book form using the YK publish function.

If this works, the ebook should render exactly as the written text without any additional html markings *etc.* A mix of rain, snow and ice that initially hit the Midwest caused headaches from the South to the Northeast, leaving up to a foot of snow in some parts of the latter and widespread freezing rain and ice accumulations elsewhere. Conditions prompted school closures, hours-long delays for commuters and hundreds of flight cancellations.
