Could Mercedes win every race of this Formula 1 season?

Toto Wolff, their Formula 1 boss, first laughed at the question after the team's fifth consecutive one-two in five races this year, and said: "Don't say that" - because he was worried about 'commentator's curse' - then said: "No."

"First of all," he said, "you need to stay humble and keep both feet on the ground. We have had five fantastic performances and five one-twos but we don't take it for granted. It is not just saying it. It is really the mindset we have."
