How to put on dog harness

33 [thumbs up](#)

To put the harness on your dog, gently slip the thicker, neck piece over their head and make sure the latch to attach the leash is on their back. Then, have your dog step through the loop with their front, left foot and grab the remaining clasp. Extend the clasp behind the right elbow and connect it...[more](#)

the Pupppia harness doesnt show where the leash hooks

14 [thumbs up](#)

The D-ring for the leash attachment is located on the adjustable quick-release belt.

[Answer This Question](#)

does this harness also come with a leash?

14 [thumbs up](#)

This harness does not include a leash. The matching leash Pupppia Two Tone Dog Leash is available.

[Answer This Question](#)

I just received my order but I need to know how the harness is supposed to fit? Does the clip belong on the dogs chest or back. Do you have a picture of how the dog wears it?

9 [thumbs up](#)

The Pupppia label will go under their chin. The strap that you clasp will then be going across their back and the D-Ring to attach a leash will be on top of the back between their shoulders.

★★★★☆ Cute harness

By leashes2x on Jan 8, 2020

I bought this for my small dog because she's really fat right now and fits into medium sized harnesses at the girth. Her neck isn't fat weirdly enough and this was still barely one finger width wider than her neck. I ordered the medium one. It's a great harness that part just concerned me so I use it on my small dog who's not fat lol. The medium adjustable enough to accommodate a small/medium dog too

★★★★☆ Nothing against the product itself!

By Kris on Nov 8, 2019

I love the harness... but I had ordered a large.. I've seen adult xl dogs wearing harnesses similar to this before! However when I received it, it was more like a small/medium sized harness than her neck. So I use it on my small dog who's not fat lol. The medium adjustable enough to accommodate a small/medium dog too

★★★★☆ Too small!

By PumasMom on Jan 9, 2020

I ordered a small harness for my 11lb, 13 week mini Goldendoodle and it wouldn't even fit over her head! It looks well made but perhaps the sizing information is off?

★★★☆☆ notagoodfit

By badharness on Jan 11, 2020

I measured my beagle using the online guide provided and selected this product in a large for my beagle. it does not fit well and is difficult to take off of her.

★★★☆☆ Escape artist on my hands

By NameTag on Nov 17, 2019

This is much easier to put on my puppy, however, it is also easier for my puppy to escape. The neck opening is not adjustable so I fastened the body buckle very snug. I don't know how he can get out of it, but somehow he is able to back out of it. He is 2 for 2 on getting out of it. I can put it on any tighter unfortunately.

★★★★☆ nice fit and soft

By Mary on Jan 18, 2020

Bought for a new mini dachshund pup in xtra small. It fit perfect. It is nice to walk her with. The only problem is it is tough to get off over her head.

★★★★☆ Great harness!

By Samantha on Nov 16, 2019

We bought an XS for my 4-month-old Toy Fox Terrier, and it fits him like a glove! Ran into a bit of trouble taking it off, since the neck doesn't clip and his ears are HUGE, but it's no problem at all so long as we flip the neck bit inside out to pull it over.

★★★★☆ Cute but wrong size

By AshF on Oct 21, 2019

Very cute and lightweight just as advertised! I think it's a great harness for a small dog. I bought a large for my medium sized dog (cattledog/ retriever mix) and it runs much too small... probably going to return it or donate it so another pup who's hopefully smaller can get some good use out of it

★★★★☆ XS still too large

By JTeat on Nov 7, 2019

The XS is still too large for a 12 week, 3 lb kitten, even though this came recommended. Her legs easily slip into the neck hole. Also I'm not sure an over the head harness will be best for a cat. I will hold onto this and try again in a few weeks.

★★★★☆ Good Pricing and Sizing

By Alex on Sep 2, 2019

After reading several reviews of the harness running smaller than stated, or not fitting around the head of their dog, I got the medium sized harness for an 8/9 week old German Shepherd puppy. Fits well.. As many have mentioned, the neck portion does not stretch at all, so I do not foresee being able to use this harness for very long. If you have a large breed puppy the medium should work for some time, but if you plan on using it as they go through their growing puppy stage, say maybe 4-6 months, I'd get a large to be safe... 5 stars because I got it for the planned puppy age and size I have. Quality is good.
